The crew clash over how to treat him and, despite their primary mission being to rescue their fellow crewmen, an argument ensues. The argument results in the Enterprise blowing up, and Trelane decides to exile them all to Earth. In the final episode of Star Trek: Voyager, Janeway, Harry Kim and B'Elanna Torres locate the wormhole and the Voyager crew remember that they have been instrumental in stopping Kazon-V military forces from attacking the Federation; Janeway sends Harry to inform Worf, who returns to Earth with the Starfleet team and the high commissioner from the United Federation of Planets. A party is held on the Enterprise to celebrate the total victory over the Federation. The Federation ship is then given to Starfleet Command, later being named the USS Varga.
