EA SPORTS FIFA® is a football/soccer video game franchise that has sold over 90 million units worldwide, including more than 60 million games sold in North America alone. The FIFA series also has won two BAFTAs and two E3 Game of the Year awards. FIFA delivers authentic football excitement through deep gameplay features that capture all the drama, intensity and unpredictability of the sport. FIFA is available on PC, Mac and Xbox 360® video game and entertainment system from Microsoft. Release date: FIFA 22 will release worldwide on August 24, 2015. The PS4™ and PlayStation®3 versions will be available on August 26, 2015 in Europe. Features: RASP: Real Atmosphere and Sensation Play - a first in the franchise, the game has been developed to deliver more authentic, unpredictable and intense football gameplay. We were inspired by the fastest action in sports, and developed a new engine to create more intelligent ball contact, tackling, and control. Delivering on the promise of the most authentic sports game this year, FIFA 22 advances ground-breaking gameplay innovations with an all-new dynamic off-ball engine that better reflects the physics of football. Performing brilliantly across all modes, it now detects the ball flying towards the player and their position off the pitch and adjust the movement accordingly, delivering a much more intelligent ball behaviour. The results are a dramatic improvement in ball control and more unpredictable shots and touches. In addition, this new engine includes a new sensing system that helps inform real-time game AI, with opponents receiving customized reactions to every touch. Finally, a new stance-based blocking system mean defences are forced to pick their blocks quickly and react accordingly, dynamically anticipating where the ball will go. Hits and Striking Power - Players are now able to inflict higher velocity shots and powerful headers. And when the ball hits the player, the collision is now more responsive, with more feedback when the ball contacts the player's head or arms, and the feeling of impact is more realistic. Matchday atmosphere - With real-time updates of all on-pitch action, FIFA 22 delivers a deeper and richer experience of the entire matchday experience. Everything from the crowd to the tannoy booms, and even the music, has been re-recorded to maintain high fidelity. A gritty-raw commentary, featuring a new voice for the Major League Soccer coverage, brings the rivalry between Portland Timbers and Vancouver White
