What's New In AutoCAD?

Markup Assist: CAD and paper-based design applications help you work faster and more efficiently with a new "Markup Assist" feature. You can read what you're doing and view design options while working on a drawing. (video: 2:44 min.) Markup Assistant, introduced in version 2013, helped designers achieve higher quality work with more flexibility. This year, AutoCAD 2023 includes enhancements to Markup Assistant, including: Markup Assist: Live Design options and color swatches displayed in the layout pane make design work easier. Choose the design you want to use for your layout, or select a color or design option you've already created. (video: 2:00 min.) Markup Assistant: Using the new interactive ink feature, make notes and add comments to your drawings. Choose one or several regions of an object, change its color, and add annotations. You can even print it out. (video: 2:55 min.) Tracelet tools: Tracelet tools help you create accurate views of 3D models for working with them, using a drafting technique that draws 2D views from a 3D model and overlays them on the original, 3D model. (video: 1:52 min.) AutoCAD Tracker: With new tracking tools, you can quickly locate and annotate multiple layers in a drawing file and manage them as a group. This helps keep track of complex drawings and permits simple organizational changes. (video: 1:48 min.) Autodesk Graphite: An updated, built-in Graphite 2D designer tool helps you more easily create vector illustrations. It gives you a familiar, familiar interface and removes the need to buy additional software. (video: 1:45 min.) 3D Modeling: The BIM 360 camera app helps you work more efficiently with 3D models. BIM 360 app: Use the BIM 360 app to view 3D models and drawings. It's a great way to easily work with these files, allowing you to annotate, tag and share them. The app offers the following tools: 3D pan and zoom 360 view of drawing models Printing views Flipping 360 views File sharing The BIM 360 app is available for iOS and Android.
