"A unique action RPG that has the appearance of action games, but is vastly different from them. Rise of the Tarnished is a game that doesn't just allow you to play with your emotions, but will ensure you won't get bored while doing so." by@B21], [@B24], [@B25]), and their quality, breed, price, and profitability. Several customers want to switch to these big companies because of their high-quality production (compared to small enterprises), well-known brands, high cost-effectiveness, and fast delivery of the stuff. High-quality stuff for low price brings a very high price (because of the heavy cost of production, administration, transportation, and import of organic stuff) for the customers. However, buying large-scale organic produce is difficult for every Bangladeshi household. Besides, even if the household gets the product, that imported organic stuff is usually obtained during the sales time. Therefore, consumers are required to wait for longer periods of time, and purchase a smaller volume of organic food (either as one regular purchase or on a monthly basis). This may create a situation wherein the customer cannot fully rely on organic food. Thus, the term "convenience" does not necessarily mean satisfaction of all basic requirements. The consumers were extremely interested in organic food. This kind of interest was common in the rural areas. The highest level of interest was in order to have a healthy and nutritious diet (36.8% for Bk-01, and 30% for Bk-02). However, as the respondents were mostly urban residents, therefore, it was expected that they would be more interested in environmental concern such as organic food ([@B26]). In fact, the results showed the effect of urbanization on households' choices of organic produce. Compared to the rural areas, households in the urban areas had a higher level of interest in organic produce (20% for Bk-01, and 42% for Bk-02), which increased with an increasing income (20% for Bk-01 and 45% for Bk-02). This was a surprising finding as one might think that the higher the income of the household, the more nutrition and care they might need and the higher the significance of food in their lives ([@B27]). However, it should be noted that the urban people's life style may differ from the rural people's. Due to urbanization, the people in the cities suffer from health problems such as degener bff6bb2d33

If your plasma screen panel is open when you start the game or you using plasma screen panel on Vita, this problem happens. If you close panel or start the game, the problem disappears. Actually, I've found this a lot of people and It seems it is okay or so. I dont know in what situation to manage this. I hope you get this solution. Good day!
