
Glass Masquerade Hack MOD

Gunderdome is a fast pace survival FPS set in a Sci-Fi era. Players will be able to pick from three maps to play on. The aim of the game is to survive for as long as possible. As the game goes on for each bullet hit on an enemy and kill will increase your total points score. Earn as many points as you can in order to get number 1 on the leaderboard. Once the game begins players will start with an Assault Rifle and a Pistol. Attack the enemies as they follow and use the pick ups and weapon pads to your disposal. During your playthrough you are going to find three different pads which you can pick up. The first pad is a green health pad. This will heal you by 20HP. These can also be picked up at random from enemies killed. The second pad is a weapons pad. Shown in red with bullets rotating over this is the only way you can get weapons in the game. With no reloading and limited ammo in each weapon the only way to carry on is hit the weapon pad and whatever you receive use it to survive. The first enemy type you'll face is the standard enemy type. It'll chase you and deal 20hp damage per touch. The second enemy type is the explosive ball. This ball is fast and deadly dealing 30hp on impact, however it is very weak and easy to kill. The third enemy type is the slow down ball. This ball won't hurt you in HP but will reduce your speed, which could be the difference between survival or not. The final enemy type is the turret ball. This is the tank of the enemies. The large ball has the slowest movement speed but has a turret which will shoot at you from long range. When you kill the enemies there is a chance you could be rewarded with a pick up item. The first pick up item is a health item. As well as the green pads on the map players have the chance to pick up an extra 20HP from an enemy they kill. The second pick up item is a Wolf. This Wolf AI will help you by attacking AI's for 30 seconds. The Wolf's attack will Insta kill all enemy types. Players can have a maximum of two Wolves on the map at a time. Robot Game Now that you are eating gourmet burgers as a team... you can learn a lot by observing... who has what job. By the way, not a day goes by that I don't see someone walk by that reminds me of that but without "Guitars in the morning" commercial!! Ninja Team up and lets take over the world!! A robot is an autonomously moving machine that can sense its environment and take actions which would not generally be expected from human reflexes. 6-second-long sfx (ba-dum, ba-dum, ba-dum) "OOOH!" Three robots finish their combat and, instead of cheerfully saying "Shakehands!" the do a weird spinny thing and clap their left arm. That's because they just powered down after killing their enemy. 6-second-long sfx (ba-dum, ba-dum, ba-dum) "OOOH!" A robot looks at the other robot and winks one eye to get a head start. This is ninja way of breaking the snake robot rule. Aww, "D"yalis, I was enjoying the combat. But I'll stop for the night soon. I guess Ninja doesn't do stand-alone missions. 7-second-long sfx (ba-dum, ba-dum, ba-dum) "OOOH!" In the forest that is Ninja, there are trees! And those trees are made of cookies. That's ninja tree cane! No, wait, that's regular tree cane, not cane that looks like ninja wood! 8-second-long sfx (ba-dum, ba-dum, ba-dum) "OOOH!" Elephants heard that and are very, very concerned about it, so I expect they'll be coming back. But I'm about to stop the robot, so I should ignore them. Ninja has partnered up with Monster Toons. Just follow their leads. Here's the Ninja Hideout. And now, The Monster Toon RobG! The Robot Build-up Control Room Private Robot Here! I am going to call you Robgee. Tell me something
