
Devexpress 12.2 Torrent

October 8, 2017 - Hello, I have installed Dvexpress 12.2.8 on my computer. Visual Studio 2017 Professional does not display Devexpress controls and templates. I have searched the internet for a solution to this problem, but to no avail. I tried updating Visual Studio 2017 Professional but that didn't help. I tried uninstalling and reinstalling Visual Studio 2017 Professional but that didn't help either. I tried installing Visual Studio 2017 Express but that didn't help either. I have a license from Microsoft for Visual Studio 2017 Professional, but I can't install Visual Studio 2017 Express. Can anyone help solve this problem? Sincerely, Wayne G.
