What's New in the?

Blackman's eBook Converter is a lightweight cross-platform utility built specifically for helping you convert plain text files to HTML, RTF, or HTML with table of contents. Since this is a portable program, it is important to mention that it doesn't leave any traces in the Windows Registry. You can copy it on any USB flash drive or other devices, and take it with you whenever you need to perform conversion operations on the fly. Unfortunately, you cannot drag and drop the files directly into the primary panel, so you should use the built-in browse function. The program allows users to change the colors for the HTML files, customize the text format by making the program insert line breaks, as well as opt for the Windows-1251 character encoding, Code page 866, or KOI8-R character encoding. In order to carry out the conversion process you are required to specify the filename and saving directory. During our testing we have noticed that Blackman's eBook Converter accomplishes a task very quickly, and without errors throughout the entire process. As it would be expected from such as small utility, it manages to remain light on the system resources, so it doesn't hamper system performance, nor interfere with other programs' functionality. To sum things up, Blackman's eBook Converter offers a simple software solution when it comes to converting plain text files to HTML or RTF formats. Although it cannot be described as the most powerful tool on the market, it does what it says and is

suitable especially for rookies, who can master the conversion process with just a few clicks. Download Blackman's eBook Converter 70.73.0.0 from Softonic: 100% safe and virus free. More than 1.000 downloads this month. Download directly or explore the [links](#) menu. Visit Softonic's homepage for more software. All software downloads at Softonic are fully validated before they are released to the public, so you'll be able to download a genuine copy of Blackman's eBook Converter free of charge. No survey or promotional code is required. If you like the software you can show your support by leaving a positive feedback or telling your friends about Softonic. Softonic is able to offer you this software for free because we have partnered with the developers of this software. The same publisher who developed this software offers us a commission if you click on the ads and buy licenses or registrations of this software. There is no extra charge for this service, and no additional software to download. Find out more in the How does Softonic work? section. Report Softonic softonic.com 3.2+: A firewall is software which controls the incoming and outgoing communications to and from computers
